

TOLKO'S STRONG DRIVE FOR INNOVATION AND THE MARKET DEMAND FOR STRONGER PAPER HAS LED THE COMPANY'S PAPER MILL IN THE PAS, MANITOBA TO CONCENTRATE ON FURTHER ENHANCEMENTS TO IT'S KRAFT PAPERS.

Voith Duoshake™

SACK MANUFACTURERS TO BENEFIT FROM INCREASED STRENGTH FOR KRAFT PAPER.....

The Voith DuoShake™ optimizes fiber orientation through high-frequency shaking of the breast roll during the paper sheet forming process.

- Creates a more consistent distribution of fibres
- Reinforces the orientation of the fibres in the cross direction resulting in improved profile

PRODUCT BENEFITS

- Increased overall strength in both machine direction & cross direction
- Maximize TEA potential (Tensile Energy Absorption)
- Improved Porosity (sheet becomes more porous)
- Expanded product line
SPX® Velocity Premier
A product for the most demanding application
